Self Evaluation: I am able to play at the highest level of soccer because of my ability to think quickly under pressure. In my role of attacking striker I am able to compliment the players around me. I like to create opportunities for myself as well as my teammates in order to get into a threatening attacking situation. I get along with most players and I never neglect a coach's advice. I also love playing soccer as much as possible even if I don't have practice I am usually around the ball.

Instruction: N.C state camp, Triangle Futbol Club,
